DETAILED ACTION

Allowable Subject Matter

Claims 1, 3-10, 12-19 are allowed.

The following is an examiner's statement of reasons for allowance: prior art does not teach nor render obvious a transconductance amplifier for an inductive load that has, in combination with other limitations, a delay block coupled between the comparator output and the power stage; nor does it have a second amplifier having an input coupled to the output of the hysteretic comparator via an inverter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patricia T. Nguyen whose telephone number is (703) 308-1927. The examiner can normally be reached on 6:30 AM - 5:00 PM.
